### No. 10: Mobile, Ala.

Mobile, located at the junction of Mobile River and Mobile Bay in the northern section of the Gulf of Mexico, has a population of 422,000. Over the last five years, the city has seen strong job growth in its natural resources, mining and construction sector as well as in transportation and utilities. German steel maker ThyssenKrupp chose Mobile as its home for a steel processing facility, which will generate 29,000 jobs during the construction phase. The new plant is scheduled to begin operations in 2010.
